Issue 124 33C

July 2002

Gida will be launched in Melbourne - model Debbie

New To You at Lions Club Charity Fundraiser

"FUN WAS THE KEY INGREDIENT FOR THE LIONS CLUB CHARITY AFTERNOON OF FASHIONS AND FOOD!"

A full house enjoyed the fashions presented by our Kuranda Boutiques. They featured Outback Safari gear from "DAWNBREAKER", Snowy River fashions from "THE AUSTRALIAN BUSH STORE", Leisure wear from "GIDA" who will be introducing her designs to the Melbourne market in the very near future.

Beach wear and hand painted silk by Gabriella and footwear from Birkenstock were the feature of "INTI DESIGNS". "NEW TO YOU" presented a wide range of eclectic designs and concluded the parade with a very colourful and entertaining display. The compares for the afternoon were Valarie, Petra and Jill, who added variety to the parade. The first three winners of the ten door prizes were very excited to receive the "Givenchy" perfume "Hot Couture", Elizabeth Arden "Red Door" dusting powder and body lotion, and Estee Lauder "Intuition" Eau de Toilette and Parfum.

The four raffles were also a resounding success for all winners.

The Kuranda Lions Club take this opportunity to thank each and every one who worked so hard to make this function a happy success. A special thanks to the beautiful models who entertained the guests with their professional, cheerful attitude.

We Serve

Gida fashions - modelled by Jemma and Chelsea

Gida - modelled by Judy

Dawnbreaker - modelled by Jurek family & co

Inti Designs - modelled by Jemma, Chelsea, Judy and Debbie

COMMUNITY LETTERS PO BOX 66 KURANDA 4872 Please note: The Kuranda Paper attempts to print all letters received. Please keep yours to the point and under 200 words. All are subject to editing. We do not publish anonymous letters or those of doubtful origin. Please ensure your correct signature, name, full street address and phone contact are submitted with your letter. Opinions expressed are not necessarily those of the Kuranda Paper.

Dear Kuranda Paper,
Re: M Gillett, Edition 123...There is always two sides to every story. I happen to know the person whose dog "bee lined" towards you and I can assure you it is not "some sort of pig dog". The dog in question happens to be a very lovable and playful old dog who wouldn't hurt a soul let alone attack anyone. The dog would have more likely licked the kids to death than want to bite them...
C. Butcher Warril Drive, Kuranda

Dear Kuranda Paper,
Last Saturday (15/6) my husband and I walked into Matilda Gifts and Pottery Shop which is situated in the Kuranda Market Mall. The shop owner asked us where we were from and my husband told him we were locals,living in Kuranda. The owner then told me that I worked in the markets which I have never done. When I told him this, he the stated "well you're locals and I don't want locals in my shop - get out". We vacated his premises immediately feeling a little bewildered by his attitude which soon turned to anger.
How dare this man treat the Kuranda residents in such a discriminating demeaning way. We are only a small community and in the off-peak season the shops rely on the locals for their custom. Well here is one that will not get our patronage again.
I have spoken to other shop owers who were shocked and disgusted at this man's attitude and they were quick to reassure me that all people being tourist or local were welcome at their premises.
K. Moule.

Reprinted from the Cairns Post "Letters to the Editor" 18/6/2002
What can I say? Stunning scenery from Skyrail, a true world class experience.
Arriving in Kuranda expecting "lots to see and do, there is a surprise around every corner" (as quoted in one tourism brochure), indeed there was! Disappointment at every corner. Tourism brochures everywhere extol the virtues of "Charming Kuranda", "Home to the Kuranda Markets and Heritage Markets", "Unique and fascinating gifts to take home with you". From where we come in Tasmania (Hobart) the Salamanca Markets are what we consider to be true markets, with individual vendors producing locally handmade and original products. Pottery, paintings, craft work, local produce, hand crafts and leric a brac. Perhaps it is an individual thing, but I am afraid my wife and I do not consider walking into an area similar to the Cairns Night Markets the true style of markets. In fact my wife visited this same area 13 years ago and was expecting (incorrectly) to have a similar experience as then, but up to date and bigger. Following the sign to the "Home of the Original Kuranda Markets" what did we find? Emptiness, yet the muzak was playing and there was not one stall open. The other experience was equally disappointing. Hoping that the stalls had moved to the new location, all we saw there were basically the same stalls that wore at the Night Markets in town. So disappointing! A great lunch was had at Kangazims, and the coconut ice cream seldom available anywhere) was equally great.
Staying with locals and treating one of our hosts to the Skyrail train experience, he too agreed, and was equally disappointed. Make no mistake: they won't be recommending a visit to Kuranda to their interstate visitors. Nor will we recommend it to our friends who seek an opinion on Kuranda Markets.The trip there and back on the train is truly worth making the effort, but please try to make the Village experience a far more happy one. In fact we spent longer at lunch eating than we did in exploring the "markets". With only one train trip back on Saturday, we had to wait an the station for 11/2 hours before we could leave.
Terrie and Bruce Chalmers, Hobart (chargers @netspace.net.au)

Dear Kuranda Paper,
Hi there...I thought I would e-mail to let you know that our local radio station Pirate FM 102. Is currently running a quiz, which asks the question. "The first one in the whole of Australia appeared in the Northern Queensland town of Kuranda, But what was it?" The jackpot currently stands at £210.00. There have been numerous wrong answers to date and the jackpot is getting bigger.
Whilst I am not employed by Pirate FM 102 I thought you may be interested to know that at least one small corner of the United Kingdom has taken great interest in Kuranda over the past few weeks.Pirate FM 102 has radio coverage over the whole of Cornwall and parts of Devon.
Best regards Phil Clark
P.S. If you know the answer can you let me know what it is.

WE NEED THEM

Burning Issue

We have a lot to report this month and shall begin with a round of congratulations to Kuranda station's Auxillary competition crew - the crew came a highly commendable 4th this year which was up 9 placings from last year. They put in many extra hours of training and study in their own time and this commitment and hard work has paid off. They were also the recipients of the Encouragement trophy. The rest of the crew are extremely proud and wish them the best of luck for next years competition. Well done Jan Simmonds, David Smart, Kevin Priestley and Andrew Hunter.

The Kuranda Crew would like to welcome on board Debbie Pearce and Jeanette Reid both of whom have been accepted as Auxillary firefighters and are soon to attend their 4 day ATEP Grade 1 course. We also wish to thank Steve De Prada and David Smart for the landscaping work; they commenced out the front of the station - its all looking great.

As you are probably aware, the dry season has well and truly started and as a result the fire hazard has increased dramatically. You will find letters in the post office this week in regards to pre-grassfire season preparation for Rural areas - keep an eye out for these. All backyard fires are currently banned unless they are in an enclosed incinerator or BBQ area. Further information on this and permits can be obtained from the station - 4093 7406 or 0417 773 829.

With the increased fire hazard, some you may find yourselves in a position to have to call for the fire brigade - the following points, if followed, will help to ensure a speedy dispatch.

- 1.Do not contact** for any fire station directly - always call **000** for any fire or other hazardous situation
 - 2.Stay calm and speak clearly.** You will be asked a series of questions ; these will be asked as the brigade is being dispatched and are essential to ensure that the correct resources are sent to your emergency. Knowing the correct address and nearest cross street/inspection are very important.
 - 3.Do not hang up** until instructed to do so. Following these easy hints will help to save valuable time and ultimately your property.
- Until next time, stay firesafe. Ima firey**

KURANDA CHAMBER OF COMMERCE & TOURISM INC

YOU WANT AN ACTIVE CHAMBER OF COMMERCE? YOU'VE GOT ONE!

Following on from last month's news that we were putting together ideas of how we can better present Kuranda and make the Chamber a more popular and effective organisation, we are now ready to do a workshop on themes for Kuranda. This will be held at 5.30pm on Wednesday 17 July at Barry Toy's Coffee Shop (beside Bendigo Bank). You are welcome and please bring a friend. The workshop will be facilitated.

Chamber members will soon be getting a letter offering a workshop on practical, hands-on training for business owners and their employees. It's called "WIN THEM, KEEP THEM, SATISFIED CUSTOMERS". The workshop is being heavily subsidised by the Dept of State Development and QITE and will only cost \$35 per attendee. Numbers are limited to 15. DATE: 8 July from 8.30am to 4.30pm. WHERE: Kuranda Sports & Social Club, Fallon Road HOW: Book through Shannon on 1800 354 414

It will be our great pleasure to have the principal of the Kuranda High School, Jenny Jensen, at our next meeting (Tuesday 2nd July, 5pm) to inform us about the 'college-TAFE' concept for Kuranda and how this will affect the interaction between the businesses and the wider community. At our last meeting, Natalie Geering, who is heading up the Headstart project at the High School talked to us about how the Chamber can facilitate the transition of young people from school to work through apprenticeships and work experience. Be in touch with us if you'd like to know how you can benefit from this. We are proceeding with Natalie's idea about how the Chamber might bring together of some of the businesses in the wider community. You will now have received a flier on Council's position about keeping to the shire-wide arrangements for election of councillors. What's your view on this? Do you think this will disadvantage Kuranda or not? We need to talk about this - and will, at our next meeting. Our next general meeting will be on Tuesday 2nd July, Billy's Garden Bar, 5pm You need to be there if you want to be part of the new way forward.

Tim Flannery, ecologist and director of Sth Australian museum:

"My feeling is we would be very well served by a population policy that had as its guiding principles, respect for human rights and protection of the Australian environment. That would allow us to be very effective in targeting environmental damage.

"At the moment we are not explicitly linking the main areas of environmental degradation in relation to the impacts of increasing population.

"What we should be doing in relationship to population growth is taking data like the latest CSIRO figures, which indicate that if Australians could reduce their draw-down on the land by 60 percent we would be living sustainably."

The Charming Witch

cont. p. 7

'Or just our plain guts!' The two of them grinned at each other while Calypso and Mariah made faces. 'It's amazing what our bodies know that our conscious minds take so long to figure out,' Mariah interpreted.

'And perhaps they're wiser than we are,' Angus added.

'No wonder the dryad thought so little of human intelligence, stuck in our ideas of how things are, and our school and book learning. Life is so much wider than that.' Calypso wrinkled her nose in disgust at the thought of going back to school.

'Ah, me darlin' ye'll be havin' to pay a price for that fine language of yours, and all the fine thoughts ye'll be havin' in that curly head. And don't ye be snortin' at all the fine concepts of culture and civilisation either.'

'Stupid old fossils!' She was openly rebellious now. Mariah smiled invitingly.

'They have no rear view mirror.' Laughter sputtered amid 'What!!!?'s to answer this outburst.

'The teachers or their concepts?'

'Both!' Calypso stood defiantly. Jeremy looked shocked.

'But we need to know some of that stuff. I mean, I learn lots of useful stuff I can do things with--'

Calypso snorted.

'In wood working, yeah. But what am I supposed to do with Charm.'

'Well you could try being charming, it wouldn't hurt.' Jeremy's eyes appealed to Angus.

'It may interest ye to know, my little blue witch, that we're not tryin' to put sand in your wheels. Ye have a natural fire, and we can only be glad it's a blue flame with some wisdom in it. Ye've done much good with it, listening to its voice as it directed ye deep into the Earth for it's healing. But ye can do equal harm and turn friends against ye if the balance of common sense and restraint isn't there. It's fine ye have little Patience with idiots, but your sense of discrimination needs a wee sharpening. A heart is meant to be warm, not hot enough to burn. And brains, like other motors, work best when cooled.' It was the longest speech he'd ever given, and Calypso's mouth dropped open as she sat. He grinned at her.

'Looks like there's more than one warm heart here,' Mariah offered quietly. 'Looks like a few friends care for you more than you do for yourself.' Calypso's cheeks burned.

'More? I care for my friends.' Calypso asserted.

'But for yourself?' Mariah persisted softly.

'I care for myself--or do I?' Calypso buried her head in her knees.

'I just have one thing to say about vegetables!' Angus announced suddenly. 'They have no rear view mirror.' Laughter sputtered amid 'What!!!?'s to answer this outburst.

NEWS FROM THE NEIGHBOURHOOD CENTRE

Hello Everyone!

Another great month to report with lots of things happening at the Neighbourhood Centre. Our Self Esteem and Assertiveness course was a big success with a delightful group of participants attending and completing the four sessions. Remember that the Centre is here to respond to your personal development needs so if there's something you would like to learn and you think we can help, tell us about it.

Kuranda-ites may be interested to know that we now have an "opportunity table". As you go through your drawers and cupboards finding all those items that you no longer need or want, think of us. We are committed to finding new homes, within Kuranda and district, for pre-loved possessions. There is no charge to those who give them a new lease of life, but of course, donations to the Centre are always welcome! Everything mentioned through this column last time went to an appreciative new owner. This time around,

there is a wooden cot and high chair and a Queen sized bedroom suite on offer. The owner of the latter would like it to go to a home where it will be both appreciated and looked after. Please ring 4093 8933 for more details.

Life really is all about giving and receiving isn't it? On behalf of a young lady with a disability (aged 10), we have been asked to find a working computer to help her with her schoolwork: no software is required. And the same youngster is seeking a bit of after school tutoring support with some of her classroom subjects. If you'd like to give her a hand, again, please give us a call.

One special volunteer at KNC warrants extra recognition this month: Chris Fryer. Chris has spent countless hours researching, editing and compiling the hot-off-the-press Kuranda and District Human Services Directory. This 65 page booklet contains all you need to know about health, social, educational and welfare services in and around Kuranda. Never done before, the Directory is a "must have" for people working with, or having an interest in, the

wellbeing of others, particularly when the going gets tough. For \$5.00 (sorry: we can't afford to produce them totally free: we are just too poor!), the Directory is yours.

And on another note, KNC has been successful in its attempts to keep the Centre operating once current rent money lapses in October. Top up funding from the Dept of Families will keep us going while a plan for the immediate and longer term future is organised.

Thankyou all for your support!
Until next time
Cherry Ferrari
Centre
Co-ordinator

KURANDA DISTRICT STATE SCHOOL

BUSH FOODS

A group of students from the Middle School have been working on a bush foods project. They are putting together a virtual field trip web site. The students are gathering information about bush foods, past and present. The students (left) went on a field trip to the Botanic Gardens and Tjapukai to learn more about bush foods. From this information students from other schools can undertake activities. Mrs House will be presenting the students work at a conference in San Antonio Texas this month. To visit our web site go to www.pa.ash.org.au/ieta/vft and click on Survivor Kuranda.

SCIENCE ROADSHOW

On Tuesday June 5th the middle and senior school went to the Science Road Show in Cairns. When we got there we sat down next to another school called Woree. We met a man named Steve who told us about sound and how it worked. It was a really good show, it was funny and everyone liked it. Then we did some activities, most people went on the spinning chair and the bed of nails first. There was a thing to check your hearing and eyesight. There were lots of other activities that we could do as well.

When the time was up we all went to the Centenary Lakes for lunch and looked at the ducks in the pond. After that we went for a walk through the Botanical Gardens to look at the plants. When we had finished the walk we played on the playground. Then we went on the bus and went home. It was really fun. (Roxanne and Jane)

MIDDLE SCHOOL CAMP

On Monday 20th May 4/5HF went to Tinaroo Environmental Education Centre for a three day, two night camp.

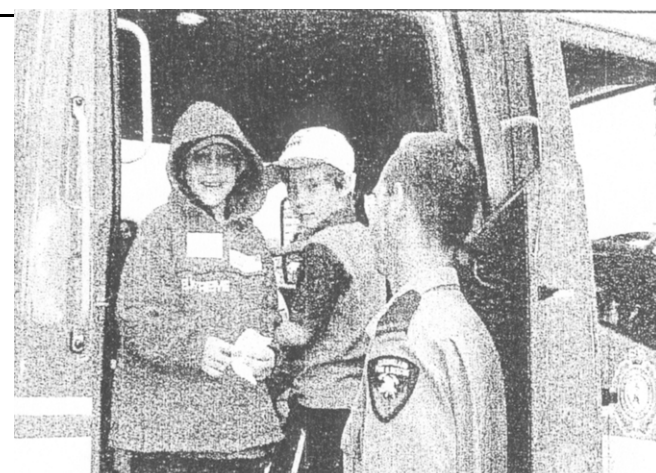

On camp we did lots of group activities such as low ropes, canoeing, fresh water studies, planting, bush walking through three different forests and drag netting. Everybody in 4/5 HF really enjoyed camp and got certificates and plants from the staff at Tinaroo. Now we are starting our own garden at school. (Meghan & Sean)

Middle W went to the Tinaroo Environmental Education Centre for a three day camp. We camped on the grass near the lake. We went canoeing, hiking and on the low ropes course. We learnt how to propagate plants and how to care for the environment. Everyone had fun. (Natasha and Cassie-Lee)

UNDER 8'S DAY

On Wednesday the 5th June we enjoyed lots of interesting activities to celebrate Under 8's Day. Some of our activities included face painting, play dough, an obstacle course and an amazing science experiment. The local fire brigade, ambulance and police visited the school. Children from the Community Kindergarten and the Family Day Care also joined in and especially liked the face painting! Thank you to the parents who helped make it a great day.

Year 1 TMT

6/7 SMITH'S CLUB DAY

On the 28th of May Mr. Smith's class put on a fabulous display of different groups. All the groups had meanings and they supplied a large number of sample bags. The day was also an open day so there were plenty of parents joining in. Everybody had lots of fun. They were either eating cake and lollies from groups or listening to groups explaining why people should join their club. Dr Lesley Clark joined us as well as the rest of the senior grades. Some groups were very amusing and others very sensible. I'm sure everybody enjoyed it, for our class put in a big effort making their groups and sample bags. (Frances)

YEAR 3 EXCURSION

When we went to Cairns Central I got a surprise. My dad came for lunch. I felt very good about him coming. We are doing a Food Safari. This was the 21st of May and we came down to learn about healthy food and living and learning how the supermarket works. (Daniel)

On Tuesday we went to Festival Faire and Cairns Central. At Cairns Central I had KFC for lunch and I got a toy. It was very fun and me and Summer wanted to come again. (Danni)

We went on an excursion and we had lunch at Cairns Central. I had a cheese and spinach roll. We went down because we were learning about healthy food and living. Jasmine had an ice cream from McDonalds. It was great fun. (Shalaka)

We went to the butcher's area. There are two butchers working together. The butcher area is in Woolworths. We went there to learn about healthy food. The lady asked if we wanted to go in the butcher's area. We felt so hungry. (Taha)

Deadlines for August 2002

Adverts, Artwork, Written material and photos can be left at the Greenhouse

Note the date - Saturday July 27th. 2002 - For this is the day when the combined Mareeba-Kuranda Uniting Church Flower Show and fete will take over the Mareeba Shire Hall, turning it into a showcase of different colours and decorative patterns.

To anyone who has not seen the visual extravagance of the occasion you will be delightfully entertained and appreciate the hard work of exhibitors.

There are objects created from a variety of mediums- arranged displays using different specimens of flowers: tempting delicious presentations that appear in the various cooking sections...and the skillfully produced hand-crafted objects that adorn so many of the tables.

To be aware of the different categories where exhibits may be entered and prizes won, interested persons will be required to have the 2002 schedule. Copies of the booklet are available from the Kuranda Library.

Irene Newlands - Flower Show Convenor - Ph. 4092 4251

A Thought for July

This month we open our bibles and read from St Matthews Gospel Chapter 9 verse 35 to Chapter 10 verse 8. Nothing we read in the scriptures is merely about the past. The event in scripture, past though it may be, is also very much with us in the present. In scripture Jesus is speaking to us, not merely has spoken to people in the past. In today's gospel reading from Matthew the writer has brought us to the point where Jesus realizes that the time has come to name those whose responsibility it will be to work with him on his mission. There is a hint that the demands of that mission are getting beyond one pair of hands, even if those hands are the most loving and gracious hands ever to touch this world.

We know that these people have already become disciples of Jesus. But now something more must be done. There needs to be an actual moment when these same disciples are given what the scripture calls "authority". This is not seen as an authority merely to give orders, which most of us like doing, but an authority to serve others, which we don't always like! Jesus then names the twelve, carefully and deliberately, and sends them out. What does this deceptively simple scene say to us? As a Christian, each of us is part of the Body of Christ. But there must come a moment when we ourselves freely realize what this means. We must own our baptism, and take responsibility for it. The experience we call confirmation is meant to help us toward that, but in actual fact taking complete responsibility for our baptism may not come for a long time. We are already disciples by our baptism, but have we fully realized what disciples do?

In verse 35 we see what Our Lord's work is. It is teaching, preaching, healing. We may not be called to do all these things. Teaching could be in many forms of handing on the faith, even if only to our own small children. But we teach by being who we are. Healing can include any act of service to another or to society. We are named. How? In baptism. But we need to hear Jesus name us again. It can happen in many quiet and unexpected moments if we will only listen. When we hear our name we will know what Jesus wants us to do. Then, with his grace, we will be able to do it. As Our Lord named his original disciples, so he names us to do his work in our time.

Words of Wisdom from
OSHO

No 87 Crucifixion

Jews killed Jesus, but they forgot that. the crucifixion would attract many people-it would become a proof that he was a Messiah, it would prove it, it would become historical; it would go deep into people's hearts. In fact, Jews themselves started feeling guilty afterwards. Judas immediately committed suicide-just twenty-four hours afterwards he committed suicide, he felt so guilty. And in the Jews who had crucified this simple man, this poor man, of course a feeling of guilt was bound to arise. And when guilt arises, the only way is to cover it up by worshipping, by giving respect. The same Jews turned Christians-they were the first Christians.

Hindus succeeded far more cleverly. They did not crucify Buddha, although they tried many times to kill him; they could not succeed. But philosophically, metaphysically they succeeded.

a Koala**

Enjoy Wildlife in the Rainforest, part of the Kuranda Experience located at the rear of the Heritage Markets! View freshwater crocodiles, pat the wallabies, stroll or walk as quickly as you like through Australia's first walk-through snake enclosure, spy a wombat and learn more about Kuranda's pioneers. Best of all - take the opportunity to 'Cuddle a Koala' - it's what we specialise in.

Admission: \$13 Adults \$6.50 Children (4-15 years)

**KURANDA
KOALA
GARDENS**
Wildlife in the Rainforest

OPEN 9am to 4pm everyday

KURANDA KOALA GARDENS

Kuranda's newest attraction, Kuranda Koala Gardens, opened its doors to the public on Monday May 13th. Located within the Heritage Markets, this boutique wildlife park is the latest of the Freeman Corporation projects to come under the banner of Wildlife Tropical North Queensland.

Other popular wildlife experiences operated by the Freeman Family Group include Wild World - The Tropical Zoo, Cairns Night Zoo and Hartley's Creek Crocodile Farm - which is undergoing a total transformation and will emerge in July this year as Hartley's Crocodile Adventures - a new concept in eco/adventure tourism.

Kuranda Koala Gardens occupies the old bungy site in the Heritage Markets and maximum use of the area has been accomplished through clever architectural design. Nothing has been spared to provide visitors with a memorable visit.

Kuranda Koala Gardens was opened to fill a need for a quality Australian wildlife experience right in the village itself. Many visitors are on such a tight holiday itinerary that they want to see all that is Kuranda without having to journey further out of the village.

All the popular animals can be seen - koalas, kangaroos, wallabies, wombats and reptiles including lizards and twenty freshwater crocodiles. A first for Australia is the unique walk-through snake house with nothing separating the visitor from the snakes. In the interests of safety, only non venomous snakes are "in house". A frog exhibit is to be added soon.

Visitors can have a souvenir digital photo cuddling one of the park's cute koalas - an opportunity available at very few places in the world. State of the art Kodak digital imaging is used and the photos are printed within sixty seconds.

A history museum, an unusual "extra", has been included and documents in old family photographs, the hardships endured by pioneering families. The owner of Kuranda Koala Gardens is a descendant of the Veivers family and one of the photos depicts a family reunion at the old homestead at Speewah.

Kuranda Koala Gardens is working cohesively with two of Kuranda's other popular nature based attractions, Australian Butterfly Sanctuary and Birdworld. A discounted entry ticket is available to visit the three attractions. Hours of operation are 9.00am to 4.00pm every day.

KURANDA CANDY KITCHEN

MAKER OF FINE SWEETS

Demonstrations most days
Letter candy our speciality.

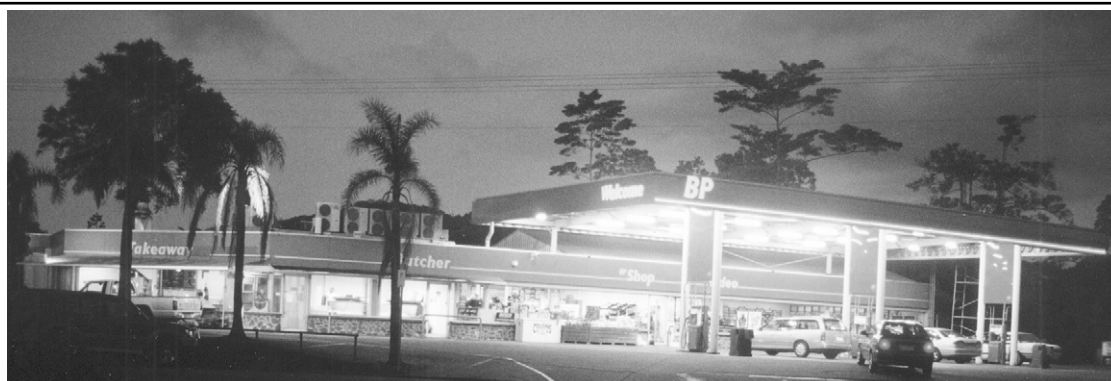

OPENING 1st JULY

Kuranda Village Centre
Phone: 40 939363

Kuranda Candy Kitchen...Have you ever yearned for the taste of those old fashioned sweets, humbugs, bullseyes, acid drops, musk candy? Kuranda Candy Kitchen now makes all these old favourites and many more in our new premises in the Kuranda Village Centre, Kuranda. When you enter the premises of the Kuranda Candy Kitchen, you will be greeted with the unbelievable variety of different colours and flavours. The smells from the candymaking will leave you mouth watering for more. You, our customers, are very much part of our candymaking demonstrations, as you stand in front of our production tables as we make the candy in front of you. Demonstrations are both educational and fun and you get to taste a sample of the warm candy after production. Demonstrations are on most days of the week. Kuranda Candy Kitchen specializes in old fashioned rock candy and many new ones, including choc filled Tia Maria and Kahlua. We also specialize in corporate candy with the name of your company on the candy, also wedding, engagement, christening, etc. Call in and see us next time you're in town, Ross and Judy.

Things are happening at YOUR Kuranda Roadhouse....

A Brand New Laundromat is being installed, complete with four new coin operated washing machines, and two big, fast gas heated dryers, with room for a third if necessary. The Laundromat will be operated, by Lynn and Kate Mosely, in conjunction with the take away. The take-away, which Lynn and Kate will be re-opening in a couple of weeks time, will not only feature "The best Fish and Chips in North Queensland", but a range of family priced meals too. The BP Shop will be undergoing a 50% increase in size and a dramatic increase in the range of items on offer.

Fresh produce lovers will be thrilled to learn we are setting up a separate Fruit & Veg. Shop, complete with refrigerated display, between the BP shop and the Video Shop. We will be stocking the complete range, and will continue our policy of buying locally, organic whenever possible, and continue selling at prices that enable everyone to eat and stay healthy.....Martin

The Video Shop has moved to the end of the building to allow for the renovations. We are happy with the lay out of the shop, it is smaller but once everything is organized it should be easier to find what you are looking for. We have a fairly extensive range of D.V.D.'s in stock now. We still have T.V.'s, V.C.R.'s and Game Machines for hire. So call in and check them out for the school holidays....Jan and Pauline

HYDROPONIC GARDENING

By Jan Coulter

My tomatoes are really doing well, I had to get up on my ladder and tie them up again. They are Summer Taste variety and don't seem to be subject to the usual fungal diseases etc. The tomatoes are hanging like bunches of grapes but are normal size. My usual graze of a morning now includes strawberries, they are very

sweet like strawberry jam. I am going to have to cut the wings of the chooks. I grow greens for them but they are flying over the fence and getting them before they are ready. I have just harvested my waterchestnuts. The tops die off this time of year and then you dig them up. They taste like a cross between apple and coconut and are nice and crunchy in stir fries etc. For Inf. Ph.4093 0394 or call in at the Video Shop.

How to be Healthy though Elderly

Regular exercise is the key to maintaining good health. Even though it gets harder to keep fit when one is older there are ways of doing so. I use my exercise bike 4 times everyday. I keep it on my upstairs verandah where I can enjoy looking at my garden, the birds and the flowers. I hang upside down in my "inverter"

machine three times a week to drain my legs and increase circulation to my brain. I only use this when my gardener is here to help me on and off it.

Everytime I watch television I put my feet on on my electric foot vibrator which exercises my feet and legs. I go for a gentle walk with my dog around most of the garden everyday enjoying it's beauty and noting jobs which need to be done.

Majorie Spear 4093 7205

Organic Gardening by Marjorie Spear

My organic garden is looking lovely. I don't grow any flowers or vegetables which require a lot of water as old age prevents me from doing much in the garden. Despite this I have numerous cherry tomatoes, pumpkins, mandarins, bananas, grapefruit and pawpaw. I grow sufficient herbs to keep me healthy including "Gotu Kola", "Mint", and "Basil". These are all flourishing. Some of the flowers

I grow are good to include in your diet including "Cat's Whiskers" which are doing very well. My flowers and vegetables are mainly perennials with the exception of marigolds which are self seeding. I grow a lot of "heliconias" the stalks of which provide excellent compost at the end of the flowering season. Anyone interested in knowing more about composting bring your questions and yourself to the Garden Group meetings.

Kuranda Garden Group by Marjorie Spear

June meeting was held at the home of Diane Morrison at Koah. This was a first visit to this garden which was very enjoyable. This was a small well maintained garden with a water feature. We have some gardens we visit every year but if you would like us to visit your garden to show us some interesting plants or featurers or to ask our advice we would be happy to include you in our calendar.

Everyone is welcome, bring a plate to share for "smoko". There is no charge. Host provides tea or coffee. Bring a bag to carry home, cuttings or seeds or even fruit if you're lucky. We don't encourage children, our meetings seem to be attracting more men this year which is nice to see. Meetings are always held on the 2nd. Saturday of every month at 2 p.m. Next meeting is at the home of Pam and Ron Elgar at Boonooloo Speewah. on Saturday 13th. July. Enquiries Ph. Marjorie Spear 4093 7205

'But it's true, my darlin' Calypso. No turnip could get itself in such a twist as you have. Don't you see? A tree may know, a flower may feel, tho usually the deeper the roots, the more powerful the feelings, but--they don't get upset about what they know. It took your very personal passion, with its roots in your feelings for your home and parents, to unlock the knowing

of unnatural happenings in the Earth itself. You became its brain. Your need to free yourself from the pain of the Earth's own dislocation was what merged with its deep sense of disharmony, and sharpened it into action. Your love was the magic, passionate to restore rightness and harmony.'

'Wow, Calypso, you have some Uncle!' Jeremy stood, stretching and yawning. 'And so do you, young man, if you want me.' Angus grinned amiably at him. 'Oh, I'll have you with thanks. I think you just answered all those questions I was going to ask you.'

'Ah! I'm not just a pretty face. Think she would put up with me if I couldn't keep up with her?' Uncle Angus made an attempt to hug Mariah as she threw back her head laughing.

'Yeah Jeremy, you're learning!' Calypso was back to her old spirited self.

'Well the wisdom in this body needs some sleep,' countered Jeremy with a smile. 'Think I'll join the vegetables. I've known enough things for one day.' He curled up on the grass smiling.

'Ok with me,' remarked Mariah. The full moon is tomorrow, and the Great Gathering. We're going to be right in the middle of it flying home.'

'Hope your mom has some of that lasagne ready for us when we get there,' Jeremy murmured half asleep already.

'If she's not fed up with making it for the last month,' Calypso yawned.

'Don't worry,' Mariah comforted. Her memory is clear. It's all been just a dream to her.'

'But I don't want to forget all this,' Calypso protested.

'It's not you who has to.'

'Sweet dreams.'

MATERIAL CHANGE OF USE

**THE INTEGRATED PLANNING ACT
WHAT'S IT ALL MEAN? HAS IT GOT
ANYTHING TO DO WITH YOU?**

You wake up one day to the sound of a bulldozer next door and trees crashing down. What on earth is going on? How come you are the last to know!

Yes, it does have something to do with you, and yes, you probably are the last to know - but only because you didn't know where to look for information and, if you had seen a notice, you probably wouldn't have known how it might impact on you and your environment.

You are part of this community and along with many others of us, our collective knowledge is what gives us the capacity to take control of (and responsibility for) what goes on around us. But, we need to know what the rules are and what our rights are. The law is actually on our side - if it is enforced.

There are some subdivisions around Kuranda that are, in fact, illegal. This occurred in the past because we, as a community, were unaware of the rules and did not challenge the decision-makers of the day (our local council). Now it's history and can't be undone.

Today it is much easier for us. We not only have KURANDA *EnviroCare*, we also have the Environmental Defenders Office of North Queensland. EDO-NQ is a body of solicitors whose charter it is to help the community understand the rules and regulations that govern development (the Integrated Planning Act (IPA)) and to assist us to make submissions (used to be called "objections") if we are concerned about impacts on ourselves or our environment. EDO-NQ can assist us with the process of ensuring that our voices are heard.

To this end, EDO-NQ's solicitors are offering to run a seminar or workshop for us in Kuranda in July. It's likely to take a few hours and KURANDA *EnviroCare* will put on lunch for all participants. What we need to know is if you would like to come and what day would suit you best. Please call us on 4093 8834 to register your interest and we'll be back in touch with final details. If there is any charge at all, it will be around \$5 to help with catering.

THE 4Ss (Sustainable Society, Schools and Sawmills)

We have at least jumped the first hurdle towards getting funding for our project to have our Kuranda schools become schools of excellence in environmental studies using native forestry plantations as the practical way to achieve this. There is a little more polishing to be done before the project gets the nod.

SEEDS - NATURE'S EXTRAVAGANCE

From time to time we put out a call for seeds and seedlings from your native rainforest gardens. The response has, and continues to be, pretty amazing. The best part is realising that so many people are interested in the work going on in the nursery and are prepared to make the effort to collect some seeds and/or plants and bring them to us.

For instance, on the day this column was being written for the Kuranda Paper, some 350 seedlings were potted up and placed on the nursery racks to grow to a decent size for planting in the EnviroLink Wildlife Corridor - somewhere near you!

The thousands of seeds you bring us are carefully planted by our dedicated volunteers, watered and tendered, until they are ready for transferring into pots. (The seeds, that is, not the volunteers!). You are probably unaware that the young trees you see along Myola-Oakforest Road and the Barron River, might have come from your property.

ERGON - GETTING BETTER

Since our grizzle last month about our and Ergon's desired outcomes needing to align better following clearing under powerlines, Ergon has arranged to meet with members of the community to have another go at resolving the problem. Thanks, Ergon.

ChemCollect - Don't forget you can dispose of dangerous chemicals at the Groves Creek transfer station between 9am and 5pm on Wednesday 10 July.

SATURDAY MORNING TREE PLANTING - 8KM FROM TRAFFIC LIGHTS

Our next meeting will be on Wednesday 2nd July at 7pm
at the Fallon Road Sports & Social Club.
(Refreshments on hand)

EnviroCare is being informed and taking control

JOINT SCHOOLS NEWS

The discussions about the possibilities of establishing a “District College” are continuing. We have had quite a number of discussion meetings during the past month. Each month we will be giving an update on what is happening and what is being discussed.

“Joint Schools Working Party”: This is a group which was formed late last year. The Working Party is the group which is leading the discussions and Proposals for changes. You may wish to have a chat with anyone in the group, so that you can keep informed. The Working Party is not a Planning body; its role is to gather opinions about the general concept of the two Kuranda Schools joining together as one College.

The Members of the Working Party are as follows:
two School Principals (Mark Evans and Jenny Jensen)
two P & C Reps (Ulla Withers and Peter McCabe)
two ASSPA Committee Reps (Irene Hunter and Dulcie Fourmile)
two School Liasion Officers (Maria Richards and Regina Coleman)
Community Rep (Fr. Chris Wright)

Over the next few months , we would like to expand the group, so if you are interested in playing a part, please contact one of the Principals.

What has been decided so far ? There are no definite decisions about anything at this stage. We are still giving out information about the proposed changes and gathering opinions about the general concept. So far, the reaction to the idea has been fairly positive and most people seem willing to explore the idea further. The major “issues” raised to date concern “Transport” and the appropriate age for students to start “Middle School”. We are listening carefully to what is being said, so that our Draft Planning document can include any areas of concern. There will be further opportunities to have your say over the next two months. We then look at whether or not to proceed with drawing up a Proposal to put to the community and to government. In the meantime, contact any of the Committee or the School Principals, to offer your thoughts on the matter.....

Full Moon: 24 July at 7:08pm in Capricorn

Dark Moon: 10 July at 8:27pm in Gemini

We have been treated to some excellent planetary viewing in June, with Venus, Jupiter and Mars visible just after dusk. In July, Mars and Jupiter set before dark, but Venus is still riding high in the sky. You can see her in the constellation of Cancer (until 29th June) and then in Leo. Leo is a very luminous constellation with Regulus as its bright star. The Moon will conjunct Venus on 12th-14th. Nurture yourself!

Gardening: Good times for minerals between 15th July and 15th August, so get that MinPlus happening! Best planting on 20-21st (but root crops best days are 6th and 29th). For irrigation (or hopefully rain!) try 1st-3rd and 28th-30th. The earth will be more receptive on these days.

Best parties: Weekend of 20th-21st passion rules, and a Sun-Jupiter conjunction brings good fortune, esp. for Gemini. The following few days are good to begin a journey.

Chill Out: Venus opposes Uranus on 9th,

which could be really weird for relating!
Special: July 6th - Earth Aphelion. This is as far away from the Sun as we get this year. Similar energy to Winter Solstice - we are returning to the light.

Happy Birthday to all those born in Cancer Sun sign (not constellation)...**“I build a lighted house and therein dwell.”** Cancer gives the energy of sensirtivity and psychic ability, helping themselves and others become aware of suffering in the world. As a Cancer raises their awareness they realise they do not have to feel insecure about what others may “do to” them. Water (sign) purifies the physical body and emotions through emotional experiences. Suffering raises Cancerian awareness to concern for others. The most nurturing of the signs, Cancerians often take in those who cannot care for themselves, and lead them back to self-sufficiency. They instinctively know what the majority of people are thinking, and their needs. From “Ray Centred Astrology” by Ruth Mierswa.

Did you know....? Our zodiac is over 4000 years old. Archeaological finds in Mesopotamia in the third millenium b.c.e show an ancient zodiac. The twelve signs of the constellations are identical to our modern interpretations. They called them UL-HE, the Shiny Herd.

Library News By Kath Raward

How wonderful to see so many new friendly faces in the Library!

Recently we have had an influx of Kuranda folk using the Library for the first time. The newly expanded Junior and Adult collections, and the beautiful NEW Internet facility have been inspiring the locals to come in to have a look.

NEW in the Library this month is:

“Is there anything at the top of the stair?” This children’s book of poems addresses some of the fears children have. It is a fun, non-‘threatening way to initiate dialogue on subjects that children might find difficult. It includes, flying, starting school, storms, the dark, spiders, things that go “Bump”, and what might be at the top of the stair.

“Screenwritng: A Manual” Oxford University Press have produced a very practical, Australian guide for budding screenwriters. It concisely covers the spectrum of writing genres for the Australian Market; including commercials, corporate, documentary, soaps, shorts, television, comedy, animation, and childrens’ and multi-media. It includes Australian references and recommended reading.

“201 Best Questions to Ask at your Interview” Yes! For you to ask the interviewer. Most books of this type give ideas about how best to answer the questions posed to the candidate. This book helps the candidate formulate relevant questions to ask of the interviewer. At the end of the interview when that dreaded, “do you have any questions?” arrives, watch out!

Remember: Preschool Storytelling Every Second Thursday 10-11 am Kuranda Library Youth Space... See the Notice in this Kuranda Paper for dates.

some more awards.

Have you seen the “new look” face of our QCWA Hall? Isn’t it looking smart. Thanks are due to Phil Thorpe for the good work he did replacing all the worn out parts and to the tradesman painter for a neat and tidy paint job.

We would like to welcome two new members to our branch - Martha Assam and Judy Davies - both very talented craft ladies. We hope they will enjoy being part of our friendly and busy QCWA group.

Craft mornings are held every Wednesday 9.30am-12noon. Come along, learn a new craft or show us a new/different craft - or just have a cuppa with our happy crafters. For Hall bookings, contact the Hall Convenor on 493 7187.

QCWA KURANDA BRANCH NEWS

Following the recent Divisional Finals in Dressmaking, Public Speaking and Country Woman of the Year Quest, we would like to congratulate our branch President, Marion Hubbard, for taking out 2nd place in childrens wear and Carol Jeanes who was selected as the Divisional entrant in the CWoY Quest. Carol will now represent the Far Northern Division at State Conference (in Longreach) later this year. All members are now busy finishing entries for the Innisfail and Cairns Shows in July - who knows, we may bring home

L.J. HOOKER

nobody does it better™

The third issue of the prestigious publication “Superbrands” has just been released, and included with the likes of MacDonalds, Qantas and AMP sits L.J. Hooker. Often cited as Australia’s leading real estate brand, L.J.Hooker is an Australian icon and well deserving of the title “Superbrand”. So what makes a Superbrand? According to the publisher, the Superbrand Council, the reasons are many and varied. Trust and passion are key qualities attaching to a Superbrand. Time to develop is important, as are the attributes of esteem, relevance and market differentiation. All these go into making a Superbrand. The L.J. Hooker brand demonstrates all these elements,

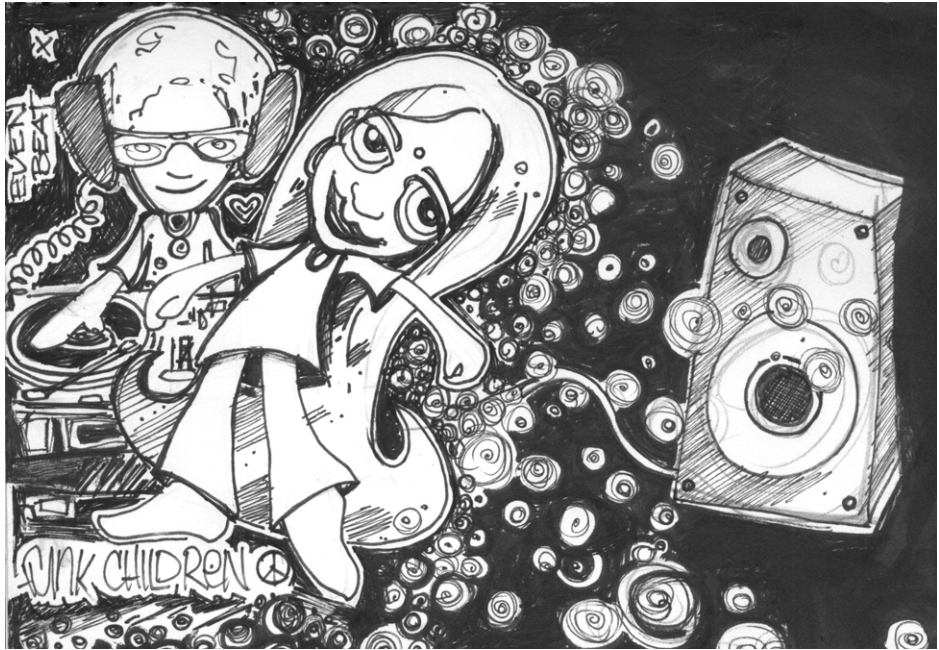

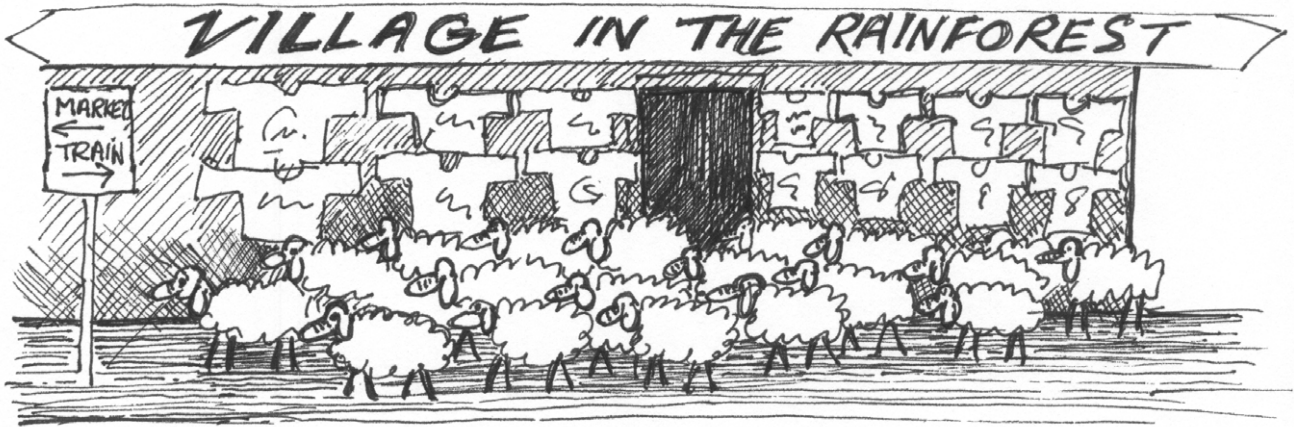

having been part of the Australian community since 1928. Over the years the name L.J. Hooker has become synonymous with real estate. The size of the L.J. Hooker network, in Australia and overseas, inspires feelings of trust, security, professionalism and expertise. This, coupled with a commitment to quality advertising and community involvement, puts the L.J. Hooker name top of mind with anyone considering a real estate transaction. So what does all this mean for you? Well, for our vendors it means more buyers attracted by a name they know and trust. For buyers it means more homes to choose from, as vendors’ place their property with the industry leader. As the ad says -‘nobody does it better’, so if you would like to discuss buying or selling, please call Mike Mabbutt or Louise Cox at L.J. Hooker Kuranda on 40 939 050.

the Greenhouse,
Coondoo St. If you
would like to do
computer art...it
can be arranged...

KURANDA MUDSLINGERS

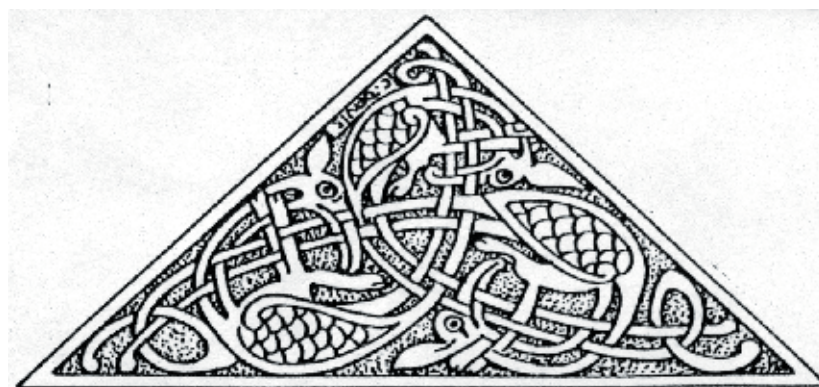

The pottery has picked up this month, with several new members, and several old ones returning with new enthusiasm. We even have folk from down the hill wanting to join as our reputation spreads! A good time to get involved if you're thinking about it. (Any queries, phone Ian or Tonya 4093 9652.)

Members should have received an invitation to our Fundraising Curry Night on July 6th by now. If not, give

Ian a call.

Because of our fundraiser, we haven't organized a guest teacher for our first Saturday of the month workshop this month, as many members will be busy cooking. Nevertheless, the stables will be open if anyone wants to come along to do their own work.

As usual, we have our FREE UNSTRUCTURED WORKSHOP on the third Sunday of the month. Come along to the stables at 10.30 (first driveway past the high school on Myola road). Bring snacks and drinks and some ideas to try out. New people always welcome.

Iridescence

I whisper the colours and you wear them
I think the words and you hear them,
by the aura of the full moon,
I dance to the tune of Universal OM,
threading through my indigo mind
In this new awakening it's COMPASSION I find
in the more exquisite places
amongst all the races
that stirs the passion in my soul,
It's there I get whole,
to once again see my divine grace
in the reflections on your face.
Turn the ego-light down low,
can you feel the flame, do you still feel the
same?

As humans' consciousness begins to rise,
I can hear the wise ones' sighs
Yes, get your passion stirring
feel the flame of your soul taking flight
up out of the day and into the night
glistening and bejewelled,
such stuff as dreams are made of,
flying as one with phoenix, eagle and dove
word-painting the images of the Universal mind
upon the canvas of evolving human-kind
Rainbow weaver link your threads with mine,
we need to create a new ancestral line
your soul-spirit is woven with mine way beyond
time
O my beloved,
(You epitomise peace, I embody freedom)
OM Star

Kuranda Arts Co-op News

Kuranda Arts Co-op passes it's second month in it's new location. We need all the help we can get to get people to come to our end of town but when they do they are always impressed to see the quality of work and regular comments are that this is the sort of work they were hoping to see. So help us impress our visitors and send them down! In fact come and see yourself, many locals don't get in and realise what we have! We have brochures available for anyone willing to help promote us.

Mollie Bosworth will be having her second bi-annual open day this month on the 6th of July at her home at 36 Butler Dve. The last one was very popular, set in Mollie's beautiful garden, a good opportunity to pick up some bargains from several artists as well as Mollie, see Mollie's ceramic studio and even enjoy a devonshire tea in the forest! All welcome

from 9am - 5 pm.

Several local artists have been selected to show their work in an exhibition called Wunderkammer at Plimsoll Gallery in Hobart - part of a Hobart University Art Forum. The exhibition is looking at souvenir art - examining the "nature of contemporary souvenirs collected as a consequence on the artefacts that refer to eco cultural tourism"

The exhibition will stimulate debate about the truthfulness of destination representation, examine levels of engagement and the role of the artist in the production of tourist souvenirs." The artists have been selected from Tasmania and Far North Queensland as having a commonality but a different environmental stimulus. This is an important recognition for the Co-op as it's artists were selected primarily to represent the area.

July will see our 5th birthday coming up with some exiting developments. But more of that next month.

Hands
that help
are more
precious
than lips
that pray.

An open Letter to Kuranda from Lexy Carroll, Down South

Greetings from Brisbane! Hello this is Lexy here, seeing what all you Kuranda people are up to - and if the youth page even still exists! I thought I might write to you all and tell you what I am up to, cuz I know when come back I am going to have to answer the same boring questions which drive me crazy! I am doing a Bachelor of Arts at the University of Queensland, in St Lucia. I am thinking about majoring in Aboriginal & Torres Strait Islander Studies and Social Work and Social Policy - but I'm not sure yet. There are crazy amounts of Kuranda kids already down here but I haven't really had a chance to catch up with many of them. Though I Occasionally see Leigh Fischer and he is going really well with his new band. Anyway enough babble from me, I should be home over the July holidays and I hope to see everyone then. Lexy

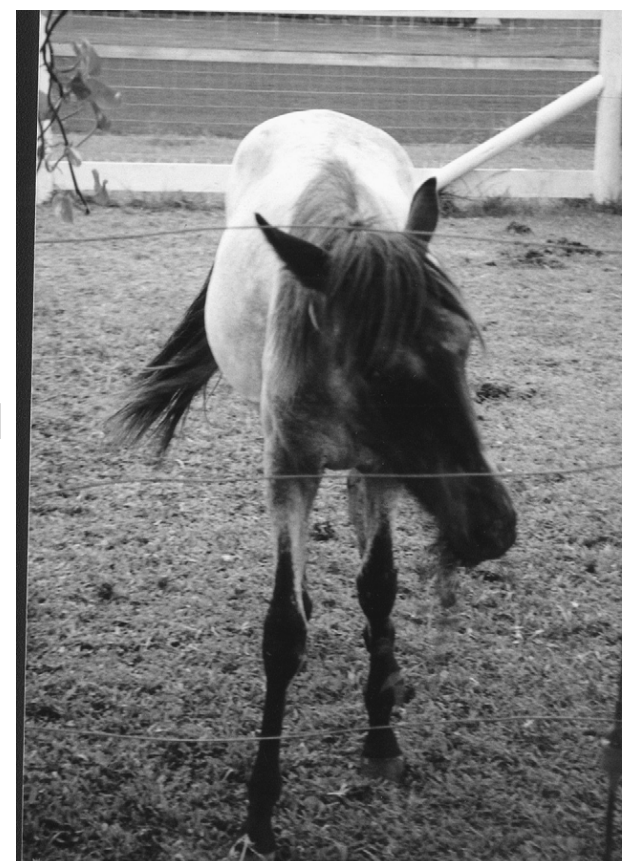

If you love animals, why eat them ?

Ban animal testing!

If I could speak, would you still eat me ?

Don't breed or buy, while homeless pets die!

Village Green by JACK McBOWL

Our heros, the Kuranda Fireys, did well on Charity Bowls night on 6 th June with their fund-raising meat-trays and the amount of \$88 goes to the Children's Ward Burns Unit in Brisbane. Thankyou for the great support. The Charity Bowl's score at this stage is :

Q.F.R.S.	26
K.N.C.	25
Q.C.W.A.	18
Q.A.S.	16
K.B.C.	16
K.St.H.S. (combines)	13

Some people think there is nothing difficult at the game of lawn bowls (huh!). But bowling is an art, a science and the subject of a lifetime. Bowls is a game that calls for skill, strategy and self-control!! It is a great revealer of Character!! Some shots in the game are amazingly simple, others more complex, but at Charity Bowls we have fun, we bowl our best shot, and hints to help players are cheerfully given. One "king of bowls" started from the age of seven and is largely self-taught. The art of bowling can be divided into four main sections - mechanics, concentration, experience and temperament. Like most sports, even the most experienced players are still learning. The next Charity Bowls night at Fallon Road is Thursday 4th July, and the team for extra fund-raising is the Kuranda Branch Q.A.S. Pre-game BBQ meal is available as usual 6 pm to 6.45 pm costing \$3 p.p. Tea and coffee is available at no extra cost. Registering should be completed by 7 pm. The cost of the game is \$7 p.p. which includes a "spider" (\$4 goes to the charity pool-fund). Social Bowls is held each Thursday evening - 7 pm (for registering). Sunday Bowls names' register by 1 pm. Telephone 4093-7631 or 4093-8057 (evenings) if you require further information. If you don't have your own bowls, bowls are available at the Club at Fallon Road, footwear must be flat smooth-soled shoes. Come along..... I enjoy company with future champions!!! JACK

your chance to clean up

ChemCollect is a one-off collection of banned or unwanted rural chemicals, including organochlorine pesticides, and it's free for all primary producers.

It's coming to a collection point near you.

- **Mareeba Shire, Julatten** Monday 8 July 9:00am – 5:00pm
Waste Transfer Station, Euluma Creek Road
- **Mareeba Shire, Kuranda** Wednesday 10 July 9:00am – 5:00pm
Waste Transfer Station, Groves Creek, 7 km on Mareeba side of town
- **Mareeba Shire, Mareeba** Thursday 11 July 9:00am – 5:00pm
Friday 12 July 9:00am – 5:00pm
Council Refuse Tip, Vaughan Drive, (two days) Dimbulah side of town
- **Mareeba Shire, Dimbulah** Monday 15 July 9:00am – 4:00pm
Waste Transfer Station, Raleigh Street east side of town

While bookings are not essential, it would be helpful to call the ChemCollect Hotline first, if you plan to bring in large quantities of unwanted chemicals.

For more information contact

ChemCollect Hotline on 1800 501 087

website: www.epa.qld.gov.au

If you missed previous collections, call 1800 501 087 and we may be able to help

12 AD347 MAY 2002

many ways to be in solidarity with the refugees

In 1951 Australia was not only one of the first countries to sign the United Nations Convention on Refugees, but also helped to write this document. The convention has provided hope and given protection to over fifty million people all over the world who have been forced to flee their homes and livelihood. 50 years later, however, the Australian government has increasingly turned its back on the humanitarian principles enshrined in this convention. Refugees are incarcerated, dehumanised, belittled and now steered off to small Pacific nations with inadequate infrastructure.

Many of us are disagreeing with the government's policies of mandatory detention, the 'Pacific solution' and the discriminatory nature of temporary protection visas, which promote the government's basic premise that asylum seekers are hostile aliens and a threat to society, which again leads some in our communities to embrace extreme ideas.

Refugee rights supporters and welfare organisations are promoting alternatives which emphasise the need for respect for asylum seekers, consideration for the trauma and hurt they have suffered, the provision of services, permanent residency and the right to live in the community while their applications are considered.

Refugees flee their homes because of serious human rights abuses.

Refugees are not criminals.

Most refugees are women and children.

Many refugees face violence after they have fled their countries. Some will never be able to return to their family or their home. Refugees have no choice but to flee.

You can do something to promote refugee human rights. You can add your voice to the growing support for refugees in Australia. You can speak up for those whose voices are silenced.

Amnesty International Australia has initiated "FACES OF HOPE"- a photo collection and exhibition as one opportunity to express your support for the Universal Declaration on Human Rights and the United Nations Conventions on Refugees by contributing a photo of yourself. This project was launched on 28th of May this year and will travel around Australia, growing larger as more people add their photograph. Arriving in Canberra for International Human Rights Day on the 10th of December, 'FACES OF HOPE' will demonstrate Australians do support universal human rights for all people in all situations. Send Amnesty International your photo. It can be any size, style, black/white or colour.

By mail to: 3rd floor, 250 Edward St, Brisbane QLD 4000,

E-mail in your photo as jpeg file to facesofhope@amnesty.org.au

For contact on any matter related to 'FACES OF HOPE' CALL 1800808157

Kuranda SCOUTS

Bingo ! Bingo ! Bingo ! We had our annual Bingo Night a few weeks ago. Thank you to all our sponsors who donated prizes and all the people who came along. It was a fun night and we raised some money for our Scout Troop. Ten Pin Bowling: We had a great time at the Ten Pin Bowling last week. This was our end of term activity and we are getting better at bowling every time we go. We travelled down to Cairns straight after school to go to the Bowling Alley. Then we had a feast of spaghetti before we returned home. Thanks Jaguar ! We were lucky to have "Jaguar", the Scout Leader from Northern Beaches troop to help out while our Scout Leader, "Perry" was away on holidays. Perry is home

now after a good holiday. We missed her! New Scouts: You can join up at any time during the year. Our newest members to be inducted are Lewis and Adam. You need to be at least 11 years old to join Scouts. It costs \$3 each week, so it's really pretty cheap and heaps of fun. Next Term: There is lots planned for next term. Some of us will be doing our Community Service work for our Badges. Our wine (that we made for Mothers Day) will be in the Cairns Show, so don't forget to have a look at it while you are visiting the Show. There might even be some more camping....

Budget News for Barron River by Lesley Clarke

For Barron River the most exciting budget announcement this year was the allocation of \$7.8M from the Queensland Bio-discovery Fund for the establishment of the \$33M Australian Tropical Forest Institute on State land adjacent to James Cook University at Smithfield. The Institute partners consist of the Rainforest Co-operative Research Centre, James Cook University, the Wet Tropics Management Authority, commercial investor, BioProspect and the Australian Tropical Mycology Research Institute directed by Dr Ceri Pearce and located at Speerwah.

The establishment of the Australian Tropical Forest Institute will bring the Smart State to Far North Queensland and provide the catalyst necessary to develop the local fledgling biotechnology industry and create a high tech future worth multi-millions of dollars for our region. It will also confirm our reputation as a world leader in rainforest research and management.

The budget also contained a number of other benefits for the Kuranda District including:

\$3.7M for the upgrade of the Barron Gorge Power Station.

\$350,000 for design, investigations and environmental approvals required for the four-laning of the Kuranda Range Road.

\$1.14M for upgrading of road, water and sewerage infrastructure in Aboriginal communities in the Kuranda District.

Commencement of public housing project at Top Kowrowa, Kuranda.

\$19,500 additional funding to the Kuranda Neighbourhood Centre.

\$30,000 subsidy for extension of the bike lane on Myola Road Kuranda.

\$75,705 over 5 years to lease space in the new private Kuranda Medical Centre for the delivery of Queensland Health Services.

An additional ranger for the Barron Gorge National Park.

The next edition of the Clark Report will contain information about other the State budget initiatives. Other important State government news is the passage of the Personal Injuries Proceedings Act to address the spiralling public liability insurance premiums. The Act contains a number of reforms to the way lawyers and the courts deal with claims and awards by capping payments, banning "no win no fee advertising, encouraging mediation rather expensive legal battles to settle claims and protecting volunteers. The federal government must now ensure that the Australian Consumer and Competition Commission keeps a watch on the insurance industry to ensure these reforms translate to cheaper premiums. The State government is also proceeding with its group scheme for community organisations which should start by September 1st.

Kuranda Community Playgroup

We are creating a playgroup to educate our childrens' minds, bodies, and spirits. Our playgroup emphasizes natural toys, non-competitive games, encourages imaginative and creative play in a Steiner based environment, and stimulates awareness of the earth and rhythms of nature. Singing, games, craft, free play, stories, and a shared fruit meal.

The Sports and Social Club, Fallon Rd, have kindly made available space for our children, so we now have a permanent venue and time!

The playgroup now meets on WEDNESDAYS 10 am - 12 noon at the Sports Club, making it more accessible for children attending Kuranda kindy and preschool.

All ages welcome.

Kuranda High Students are embracing Work Experience.

We are proud to report that local businesses and those in the wider community (Smithfield and Cairns) are supporting our students in their work experience endeavours. The opportunity being offered by businesses is greatly appreciated as we understand the energy and effort that is extended for a student in work experience. The Post Compulsory Year 12 group has been involved in work experience over the past few weeks. The students have all reported that their placements have been positive and that they learned a lot. In appreciation of: Duncan and Martine (Kuranda Tyre & Mechanical) – for Wilton Brim who is aiming for an automotive apprenticeship. Jan and Rodney (Kowrowa Store) – for retail experience for Florence Williams, Judy Buschkens and Miguel Trapaga (Kuranda Health Sciences Centre) – for Glen Sheppard who is interested in Massage. Peta Donnelly (Kuranda Community Health Centre) – for allowing Martha Brim to do community visits and workshops with Susan Wason. Rita Gutchen (Wu Chopperen Health Worker Programme) – for taking Sherry Anne Diamond on home and school visits. Administration staff at Kuranda High – for allowing Rebecca Herd to experience working in a very busy school office. Lency Wasiu (ATSI Housing Cairns) – for letting Dawn Donahue experience the administrative side of Community Housing.

Several year 10 students will be participating in a holiday work experience programme organised by Vocational Partnerships Group (VPG) and Cairns Regional Group Training (CRGT). The Talent Identification Programme (called TIPs) targets year 10 students who are seeking a school based traineeship or apprenticeship (SATs) for years 11 and 12. The students are placed with employers who support and/or can offer SATs to senior students. Thanks to: Roger Smith (Kuranda Vet Surgery) for Nykea Ralston, Muffin Break (Smithfield) for Samara Stevens, Smithfield Vet Surgery for Shannon Lott.

Other students are currently completing workexperience on a fortnightly or weekly basis and another group of our keen students (years 10, 11 & 12) are completing a 3-day workexperience block in their June/July holidays. Thanks to: Hasting Deering – for regular workexperience for Clinton Green, Barbara & Roger Woodfield (locals) at Queensland Power Products – for Lance Bridges., Aero-Tropics Aviation – for Kyran Wiggins, Jo Simony and Barbara Koen at Kuranda Hair & Beauty – for Talitha Buthmann, Staff at QITE (Kuranda) – for Esther Brim, Rainforestation – for Vivian Riley (office administration experience), Novatel Palm Cove Resort – for Shirleen Riley, Vicki Massey (Wicked Weaves) – fashion retail & design experience for Rohanna Rusch

Headstart Project Update Frank Hudson has recently commenced mechanical workexperience with K-mart Auto and Natasha Walker is trialing for a Food & Beverage Traineeship with Tjapukai (so we wish her well). Several students are also set to do work experience in the school break with local businesses.

Next Term the Headstart Project sees 3 or 4 students commencing work experience with Metroll in Cairns (in roofing and accessories fabrication and office administration) and Adam Geering (a local Builder) is also available next term to support students with work experience in carpentry/construction. Further thanks to: Justin Buchanan and the boys at K-mart Auto (Smithfield) – for Frank Hudson, Kobi Zilberstein (local resident/Manager of Metroll) – for Ashley Levers & Scott Diamond, Adam Geering (local Builder), Tjapukai – for Natasha Walker and Ian Bosen

A BIG THANKS & RECOGNITION of all the above businesses for supporting our students and taking the time to provide them with work experience: Well done to our students for being out there in work experience! Jenny Harmony, Julianne Russell, Lesley Mason and Natalie Geering

KURANDA HIGH
These photos were taken at the Year 8 school camp and on our bungee jumping excursion... everyone had a great time!

HOST A STUDENT

We will have 8 students (aged 14 to 17 years) visiting Kuranda State High School from July 26 to August 13. The students are from Shiriuchi High School in Japan. We need Host Families. Families who host a student will be paid \$24 per night, per student to cover costs of accommodation and meals. This is a great opportunity to have your family learn about another culture. 'Beyond the Everyday' Full Moon Loony Poets Party (The Final Curtain) by Star.

The evening of Sunday the 26 May was graced once again by the ancient "god of light, Zeus" (with planet Jupiter influencing as a golden full moon was in Sagittarius this night) playing his role of every thing becoming expanded. Australian astrologer Thomas Zimmer states: "This is a time which ideally should be given over to recreation of the higher sort, exploration of ideas, contacts, places beyond the everyday, and outdoor walks. The night begins with vocalist "Cazman" and drummer "Del" from Hot Rubber Glove jammin' some get-down fat-rockin' beats.... Get down Jah "we been lookin' for the answer". Yes the Glove are back just for a wee visit. Wahoo!! David J. a man of many talents recited "An Ode to Aging"... Michael Q. did his " Pancha Tantra with the "Precious Book of 100 Rupees-only one sentence in it", with supporting actors David in yet another outrageous role, Di Russo as Princess Moonlight, and attendant Jane Q. this was a story about "the man who got what he was destined to get".... Denise, poet extraordinaire graced the stage and had us in fits with her "Wet, don't go to the shopping centre with PMT, and a sad one "Weekend Dad". Morgan from Melbourne did his Sydney to Melbourne skit that was a crack-up. Barry and Neville play guitars and sing "Nightmoves" by Bob Seeger. Some bloke walks by me in a Dalai Lama T-shirt, onya mate.... Diana sings "Amazing Grace" and reads her "What If" poem. Tony Hillier the funky editor of the Barfly Newspaper sings a love song with a difference, "Masochism Tango".... And he invited any Loony poets that want to put their stuff in the Barfly to let him know.... Tony's next number was an olde Aussie bush ballad "They Don't Write Them Like That Any more". David Jones and David Gothard (Davo & Davide) were the LPPP (Loony poets' political party) and their political platform was "The National Promotion of Pleasurable Nonsense". I moon-viewed about now and that Jupiter moon was pure silver. Coming back into the performance space was nigh impossible with bodies everywhere. Melissa & Debbie were singing a Queen song, with Sada up next playing his harp and the beautiful "Bardess" Jane Quinn singing "The Evening Star".... which she dedicated to moi, your long-winded correspondent!! Sitting outside once more in the moonlight, kids of all ages are playing on scooters, skateboards, bicycles & generally running around having a ball.... Gida did her poems next (didn't get the names of). From where I sit the moon is framed behind the crimson bougainvilleas above the wooden rooftops. It's a night of enchantment. Michael Quinn is barding away to us all, David J leaps upon the stage & flogs his "Mantic Poets CD. & doth quote his

"Bums" poem. Two incredibly talented young funksters Ben Fox & Kurt played us some of their funkcd-out numbers (full-on jammin') wahoo & wahoo!! "Still got the Blues for You", "Mean Ole Garbage Man Blues", & then a Jimi Hendrix song. Ben & Kurt you'll go far.... You do the old rock hands proud guys!! I'm flying on the edge of my seat about now!! HOT RUBBER GLOVE are back.... bring them on.... first up "Beatbox" with Yo Cazman, who welcomes David their new band member on trumpet, Dave on lead guitar, "Wantok" on drums, Joey Star on horn, Crystal on Sax & Morgan Quinn going off.... Rasta move your body to the music, fall down Babylon, Rastaman is dancing! "Wantok is also the name of THE GLOVES' new CD. Rasta people doing Jahs work. It's a night of stars popping up all over tonight, stars on peoples clothing, stars have taken over.... It's another packed gig here at the Honey House so I'm plonked down here on the floor with the kids in the front row. Love that funky beat, get down, it's about one love, Peoploids get up and start dancing, little people and biggies.... As I dance, I close my eyes and inwardly I see the herds of wild horses running by the light of this Sagittarian full moon, they run wild and free, in my minds eye they will always run Wild & free.... Om Star. STOP PRESS!! This was the very last Loony Poets Party!! The Loony Poets night advertised for 24 July has been cancelled. Thank you to all who participated and helped to make the gig the overwhelming success is has been.... Maybe it will be resurrected like the phoenix in the future. And as they say in the theatre.... Exit stage left....
